

Making Connections: accelerating innovation in flexible and hybrid electronics

innoLAE 2018 industry day is a FREE business networking event bringing together the UK's leaders in research, technology innovation and manufacturing of printed, flexible and large-area electronics. Delegates from market sectors including automotive, healthcare, aerospace, print and packaging, and the built environment will attend this event.

The industry day will feature a panel session on market opportunities for this technology, a presentation on funding opportunities for the UK electronics industries, an overview of current technical capabilities and

market prospects, and an opportunity to give a 2-minute pitch about what your company can offer. Drinks and canapés will be provided in the networking session which will round off the event.

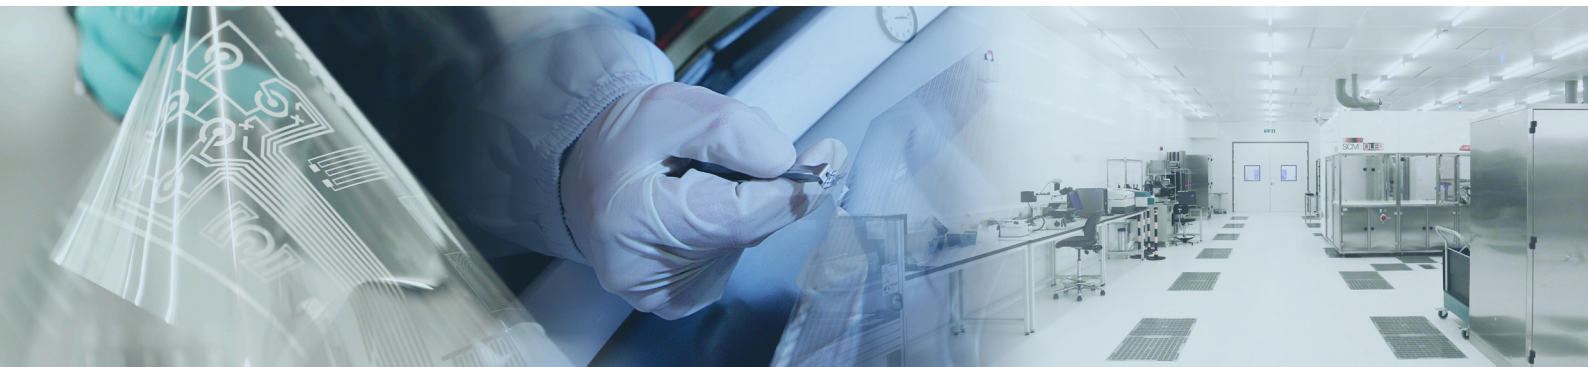

Reasons to attend

- Hear about end-user requirements for the technology
- Network with everyone active in the UK industry in one afternoon
- Find out about the latest funding opportunities and how your business can benefit
